

## Deployment Statistics

Lasted a total of 9 days

61 Personnel activated supporting the following resources:

- 1 Water Rescue Squad

Teams completed:

- 33 Evacuations
- 2 Assists

Type - **RAIN**

In late June the state of Texas received heavy rainfall from a wave of tropical air from the Gulf of Mexico. On June 25th, TX-TF1 deployed one Water Rescue Squad made up of two Water Rescue Boat Teams to stage in Raymondville to assist locals in the event of flooding. Many victims were rescued from the strong waters by task force members and some were even given life-saving treatments.

On July 3 the TX-TF1 teams prepared for demobilization and were returned safely home. Throughout the deployment the teams completed many evacuations, multiple sheltered in place, and served as backup for local responders.
