

2021

OCTOBER RAIN EVENT

Deployment Statistics

Lasted a total of 4 days

26 Personnel activated supporting the following resources:

- 4 Water Rescue Squads

Teams completed:

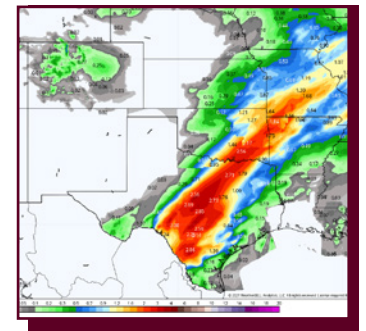

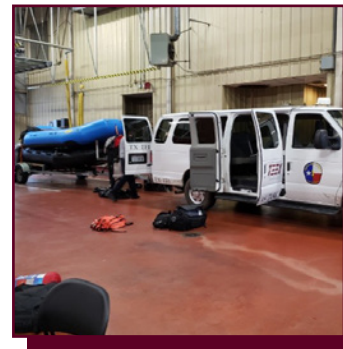

- 2 Assisted Rescues

Type – **RAIN**

On October 12, 2021, the Texas Division of Emergency Management activated Texas A&M Task Force 1 in preparation for severe thunderstorms as well as the approaching Tropical Cyclone Pamela. The team consisted of 4 Water Rescue Squads, 1 Water Group Supervisor, and Support Specialists to stage along I-35 in regions 1 and 6.

Over the next two days the teams were backup for San Antonio Fire and assisted in two rescues. Two of the Water Rescue Squads were released on October 14, 2021, after no requests for service. The remaining resources were demobilized the following day, October 15, 2021, with the storms leaving the state.

OCTOBER 12-25
