

Deployment Statistics

Lasted a total of 24 days

191 Personnel activated supporting the following resources:

- 2 Type 3 Urban Search & Rescue (USAR) Teams
- 13 Swiftwater Rescue Boat Squads
- 3 Water Group Supervisor (WGS) Packages
- 4 Helicopter Search & Rescue Technicians (HSART)
- 1 HSART Manager

Type – **RAIN**

On April 9, 2026, at the request of the State Operations Center (SOC), Texas A&M Task Force 1 (TX-TF1) activated 2 Swiftwater Rescue Boat Squads and 1 WGS package in anticipation of a localized heavy rain event. On April 10, 2026, TX-TF1 activated 2 additional water squads and 1 additional WGS package. On April 12, TX-TF1 activated 2 more water squads. Over the following days the squads were strategically repositioned based on the weather forecast.

On April 18, while in Bryan, WS-ATCEMS/Bryan witnessed a rollover accident and pulled over to assist until the local Fire Department arrived. On April 20, TX-TF1 activated 2 additional water squads. That afternoon, while en route to their new staging location, WS-San Antonio stopped to help a civilian whose truck was stuck in the mud. They were able to free the truck using their truck winch.

On April 21, TX-TF1 activated 4 HSART personnel and 1 HSART Manager to stage in Austin and San Antonio. That afternoon, WS-ATCEMS/Bryan was ordered to move toward Georgetown to check the status of an RV park. While there, they assisted a resident with freeing their RV from the mud so that they could evacuate. On April 23, 3 water squads and 1 WGS package were demobilized. On April 24, Texas Task Force 2 (TX-TF2) activated a Type 3 US&R Team to stage in Grand Prairie, and TX-TF1 activated an additional water squad. On April 25, the TX-TF2 Team repositioned to Runaway Bay. On April 26, TX-TF1 activated a Type 3 US&R Team to stage in College Station, along with an additional water squad. 1 water squad and 1 WGS package were demobilized. That day, TX-TF2 completed multiple structural searches with a canine from Overland Trail towards Cactus Canyon before being cleared from the incident by the Texas Division of Emergency Management (TDEM).

On April 29, TX-TF1 activated 2 additional water squads and an additional WGS package. On April 30, they activated 2 more water squads. On May 2, all resources were demobilized and returned to their home stations to rehabilitate their boats and equipment.
