

Deployment Statistics

Lasted a total of 2 days

95 Personnel activated supporting the following resources:

- 2 Type 3 Urban Search & Rescue (USAR) Teams
- 4 Swiftwater Rescue Boat Squads
- 1 Water Group Supervisor (WGS) Package

Type – RAIN

On May 11, 2026, at the request of the State Operations Center (SOC), Texas A&M Task Force 1 (TX-TF1) activated 4 Swiftwater Rescue Boat Squads, 1 WGS package, and 1 Type 3 Water Capable USAR team. TX-TF2 also activated a Type 3 Water Capable USAR team. The water squads staged as follows: WS-Austin in La Grange, WS-Dallas in Temple, WS-El Paso in Hondo, and WS-San Antonio in Kennedy. The TX-TF1 USAR team staged in College Station, and the TX-TF2 USAR team staged in Grand Prairie. That evening, WS-San Antonio received a request to assist Granite Shoals Fire Department with a stranded boat with 3 adults and 7 children on Lake Buchanan.

On May 12, 2026, WS-Austin and WS-San Antonio remained in their staging locations awaiting any calls for service. WS-Dallas was repositioned to College Station to stage, and WS-El Paso relocated to Bandera where they performed reconnaissance of the Medina River. The TX-TF1 and TX-TF2 USAR teams remained in their staging locations.

That afternoon, all remaining resources received demobilization orders. All personnel returned to their home stations for boat and equipment maintenance.
