

2026

01 JUNE SEVERE WEATHER

Deployment Statistics

Lasted a total of 10 days

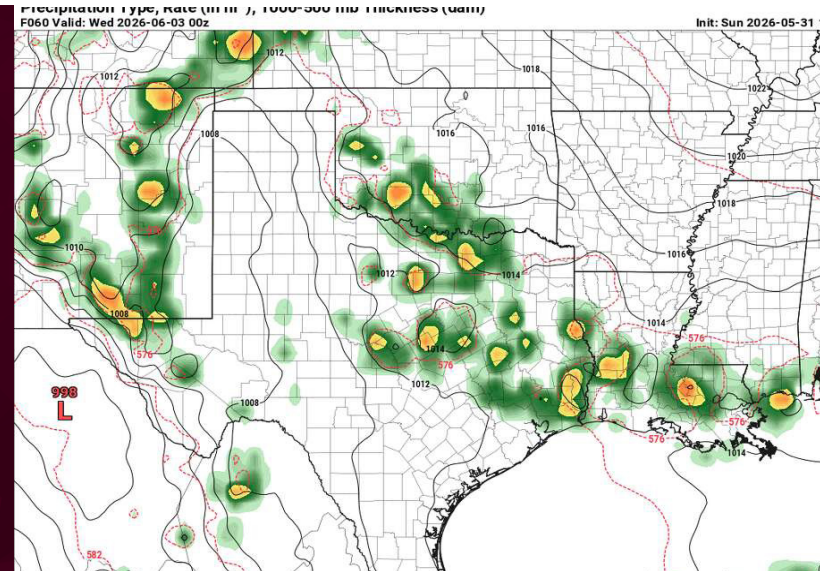

48 Personnel activated supporting the following resources:

- 7 Swiftwater Rescue Boat Squads
- 2 Water Group Supervisor (WGS) Packages

Teams Completed:

- 1 Rescue
- 3 Evacuations

Type – **RAIN**

On June 1, 2026, at the request of the State Operations Center (SOC), Texas A&M Task Force 1 (TX-TF1) activated 2 Swiftwater Rescue Boat Squads and 1 WGS package to be in place the following day. On June 2, 2026, TX-TF1 activated an additional water squad to be in place the next day. On June 3, 2026, the squads remained staged in their locations. On June 4, 2026, TX-TF1 activated another water squad. On June 5, TX-TF1 activated 2 additional water squads and an additional WGS package.

On June 6, 2026, early that morning WS-Austin responded to a report of a person trapped in a vehicle in the water, where they successfully rescued the victim. At 0815, they responded to an 18-wheeler stuck in rising water and assisted with the evacuation of 3 people. Over the following days the squads were strategically repositioned based on the weather forecast.

On June 8, 2026, 5 of the water squads and 1 WGS package were demobilized. On June 9, 2026, the squads remained in place monitoring the weather and received no requests for service. On June 10, 2026, all remaining resources were demobilized. The squads returned to their home stations for boat and equipment rehabilitation.
