

# 2019

## TROPICAL STORM FERNAND

### Deployment Statistics

Lasted a total of 3 days

14 Personnel activated supporting the following resources:

- 2 Water Rescue Squads

Type – **TROPICAL STORM**

On September 3, 2019, Texas Division of Emergency Management activated two Water Rescue Squads, one Water Group Supervisor, and a Support Specialist from Texas Task Force 1. The squads staged in Brownsville and Los Fresnos to assist Region 3 in the event that Tropical Storm Fernand made landfall in Texas.

On September 5, 2019, after Tropical Storm Fernand instead made landfall in Mexico, there were no further requests for service. All TX-TF 1 resources were released back to their home stations.

September 3-5
