

2020

HURRICANE SALLY

Deployment Statistics

Lasted a total of 5 days

78 Personnel activated supporting the following resources:

- Type 1 SAR Water Capable Team

Type - **RAIN**

on September 13, 2020, the Federal Emergency Management Agency activated Texas A&M Task Force 1 to stage for Tropical Cyclone Sally approaching Louisiana. The Task Force activated a Type 1 Search and Rescue Water capable Team and maintained a ready status for a few days after Sally made landfall.

On September 17, 2020, the teams were demobilized after Louisiana decided TX-TF 1 was an excess resource and no longer needed. The teams returned to their home stations.

SEPTEMBER 13-17
