

### Deployment Statistics

Lasted a total of 2 days

44 Personnel activated supporting the following resources:

- Type 3 Search & Rescue Team

Type – RAIN

On December 13, 2022, the Texas Division of Emergency Management activated Texas A&M Task Force 1 in preparation for severe weather in Texas Region 1 & 2 bringing with it the possibility of tornadoes and hail.

The team remained ready for deployment throughout the day and overnight, during which 9 tornadoes touched down in Region 1. After no requests for service and with the storm leaving the state, all resources were demobilized back to their home stations.
