

Deployment Statistics

Lasted a total of 3 days

30 Personnel activated supporting the following resources:
 • 5 Water Rescue Squads

Type – RAIN

On November 24, 2022, the Texas Division of Emergency Management activated Texas Task Force 1 to prepare for flash flooding in Northeast and Southeast Texas. The team consisted of 3 Water Rescue Squads, 1 Water Group Supervisor, and Support Specialists. The following day, November 25, 2022, TDEM activated 2 additional Water Rescue Squads. All 5 squads staged across Texas in Regions 1, 2, and 6 to support the local responders.

On November 26, 2022, TDEM released 3 Water Rescue Squads to return home after no requests for service. The remaining resources stayed monitoring the weather the rest of the day. Once the heavy rains left Texas, these personnel were also demobilized and returned to their home stations.
