

2020

TROPICAL CYCLONE DELTA

Deployment Statistics

Lasted a total of 3 days

62 Personnel activated supporting the following resources:

- Type 3 Search and Rescue Water Capable Team

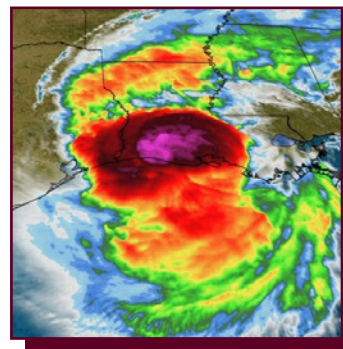

Type - **RAIN**

On October 8, 2020, the Federal Emergency Management Agency activated Texas A&M Task Force 1 as a Type 3 Search and Rescue Water Capable Team in preparation for Tropical Cyclone Delta approaching Louisiana.

The team staged at their home station in College Station, TX to follow the storm's direction and remained ready to deploy to any location. The team remained ready for a few days after Delta made landfall in the event that Louisiana needed their assistance.

With no requests for service, the teams demobilized back to their home stations on October 10, 2020.

OCTOBER 8-10
